

# Safety Card: Yubo

Yubo is a social media app that allows users to make friends by swiping through profiles in their area. Users can also live stream and chat 1-2-1 or as a group. It's currently available on Android and iOS phones. Users have to be over 13 years old to use this app and Yubo uses 'age-gating' technology which aims to match users with others of similar ages.

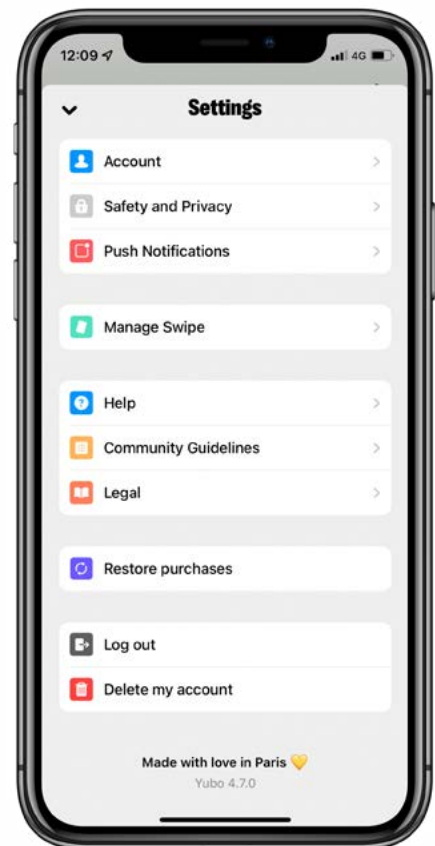

Stay safe on Yubo by using the instructions **Privacy, Blocking & Reporting** below.

## Privacy

**Configure your privacy settings using these simple instructions:**

- Tap on  in the top right corner of your app.
- Tap on  in the top right corner.
- Tap on **Safety and Privacy**. From this menu you can configure your location sharing, muted words, and more.

## Blocking

**Block a user using these simple instructions:**

- Go to the user's profile.
- Tap on  in the top right corner.
- Tap on **Block**.

## Reporting

**Report a user using these simple instructions:**

- Go to the user's profile.
- Tap on  in the top right corner. Tap on **Report**.
- Select your reason for reporting that video and submit.
