iSAT

INEQE Safeguarding Assessment Tool

Join over 7,000 organisations across the UK and Ireland that trust INEQE for all their safeguarding self-assessment needs.

This innovative digital audit tool is designed to meet safeguarding self-assessment requirements, identify gaps in policy and practice and drive improvement. Its flexible configuration makes it ideal for all organisations, ranging from a standalone community group to national bodies with complex accountability structures.

-  The system assigns actions, tracks progress, sets reminders, and prompts delayed responses - never miss a deadline again.
-  The system streamlines even the most complex self-assessment process, saving time and money.
-  This agile system encompasses audit questions that test regulatory safeguarding obligations and good practice standards.
-  The iSAT identifies areas for improvement generating focused and measurable action plans in its dynamic risk dashboard.
-  iSAT's intuitive features enable users to identify, add, configure, weigh risk, and score their own audit questions.

The Baseline iSAT Audits

10 Key Areas

- 1 Governance, Leadership and Key Roles
- 2 Induction and Training
- 3 Safeguarding Policy
- 4 Associated Policies, Procedures and Guidance
- 5 Online Safety provision
- 6 Practice
- 7 Safer Recruitment and Support
- 8 Culture, Ethics, Behaviour and Equality
- 9 Communication
- 10 Physical security measures

The system can be configured by users to meet their specialist requirements, or pre-set templates can be activated to provide deep dives into specific areas of concern, for example online safety and related policy, practice, context and impact.
